Hélium

protects your formula and our planet

KZ-H101-108

KZ-H102-125

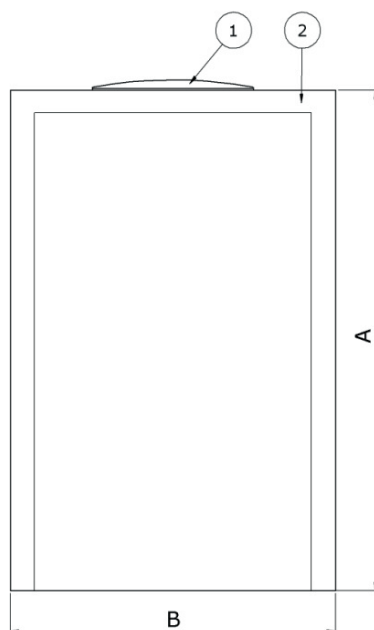

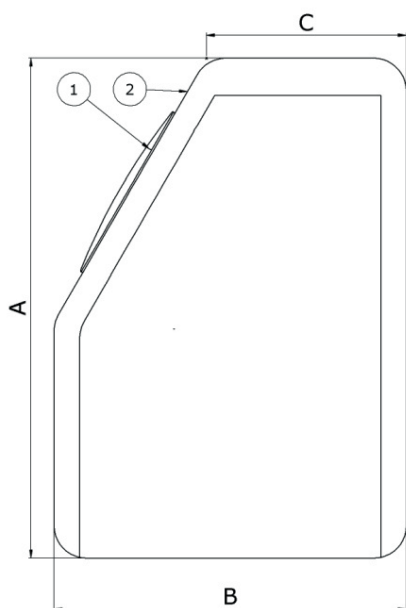

KZ-H103-120

Hélium is an ultra compact and lightweight airless dispenser for hygiene and cosmetics formulas.

Hélium is a combination of a strong pouch and a pump-applicator **TWIN-FLEX**

Its hermetic valve fully protects your formulas.

Technical Datasheet

Hélium

PRODUCT

- Hélium is an innovative airless dispenser based on a new valve technology "Twin-flex"
- Hélium offers a new gesture to dispense precisely your formulas

POUCH CAPACITY

- 5 ml to 50 ml

DOSES

- 0.35 ml (pump Hélium I)
- 0.70 ml (pump Hélium II)

N°	Item	Materials	Weight (g)
1	Pump Hélium I	PP	1.95
1	Pump Hélium II	PP	3.60
1	Valve	TPE	0.05
2	Pouch	Complexe PET12 // A16 // PET12 // CPP60 Complexe PET12 // A19 // PET12 // CPP60	1.2 to 2.3

ADVANTAGES

- High protection of the formulas against oxidation and bacteria
- Compatible with high viscosity products > 300 000 mPa.s
- Light and compact, Hélium participates to the reduction of waste
- Easy to use, allowing accurate dispensing
- Fast to use

DESIGN

- Pouch size and design are adaptable
- Possibility to add your own applicator

Reference	A (mm)	B (mm)	C (mm)	Pump	Weight (g)	Volume max (ml)
KZH101-108	108	80	---	Hélium I	4.1	45
KZH102-75	75	65	---	Hélium I	3.2	6
KZH102-100	100	65	---	Hélium I	3.7	12
KZH102-125	125	65	---	Hélium I	3.9	20
KZH101-140	140	80	---	Hélium I	4.3	30

For Hélium II add 1.60 g - Example reference: KZH202-75 Weight 4.8 g
